

# Four great secrets

---

Imagine that one day you noticed that you are closed in a dark and sultry basement. There is one small window at the top of the wall. Some light sometimes gets in through a dirty glass. Some sounds of steps and voices of people walking by can sometimes be heard from outside. You do not know how you got in there. You do not know who you are or where you come from. You forgot all your past. You do not remember anything.

Someone from outside sometimes visits you. Used to darkness, rarely only clearing into semi-darkness, you do not understand what he talks about the world outside the basement and about all-embracing Light that dominates there.

Raise your vision. I know how difficult it is for you to imagine another world, how difficult is to find your own path. That is why I want to tell you a few secrets that you will easily use in the appropriate time.

The first of them will concern your spiritual path. Know from today that if you only ask Me, I will take full control over your development and will arrange your matters so that you tread this path in an accelerated pace. It is enough that you utter the magic words 'Do this, Master, please' and I will immediately take appropriate measures. This is going to be our first secret.

The second secret will concern your spiritual work. Undertake one of the meditations that were described in this book. Ask your Divine Friend that He shows you the one that would suit you best. Keep turning towards Divinity that is everywhere and in time you will feel Its response from you own heart. For that is the place wherefrom I speak to people. You all are in Me and you all are Me - along with plants, animals and the entire Cosmos, which is full of love and good.

Thirdly, speak to Me words of love, speak like to a friend, speak like to someone you love very much. Ask Me to settle awaiting you matters My way. Ask that I take part in them with you and even instead of you sometimes, for I can do also such things, and I indeed do them. This will be our third secret: sometimes I will just do something instead of you. Think then that your deepest and most loving Self, which continuously remains in unity with Divinity and which verily is It, has appeared

in your life and took over a part of your tasks, struggles and burdens. The third secret means that if you keep focusing more and more often your attention on Me, and turning with love for Me, you will enable My cooperation with you, action in you and through you.

The fourth secret is a crowning achievement of the previous secrets. Keep turning in focus and prayer to loving Father-Mother with the request that He equips you with His powers of love towards God, powers of happiness, joy and goodness. They will replace and remove from your body and mind all the pollution that constitutes the walls of the described basement. With the passage of time they will let you notice initially weak glare of Sun. You will understand then what people who paid you visits were talking about - that you and loving Creator are indivisible oneness, the oneness in love, happiness and deep devotion to the highest love.
